Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 October 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1.5-10 and 13 is/are pending in the application.

DETAILED ACTION

Response to Amendment

In view of Applicant's Amendment received 20 October 2008, amendments to the claims have been entered. Claims 2-4, 11, and 12 are canceled. Claims 1, 5-10, and 13 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 5-10, and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1, line 4, the limitation of "homogeneously" is consider as a new matter since there doesn't appear to be any support for "homogenous" in the original disclosure.

There is no art rejection applied at this time because the applied reference to Ehrenberger et al. (US 6,715,525) fails to disclose that the skirt (2) is carried by and formed homogeneously with the spool (3) as the claim currently requires (irrespective of the holding of "new matter") and there is no proper motivation to provide the spool (3) of Ehrenberger et al to be homogenous with the skirt since the teaching therein is to have the spool rotate with respect to skirt (2) and thus these elements cannot be homogenous with one another.

Drawings

The drawing was received on 20 October 2009. This drawing is not acceptable because of the introduction of new matter as has been noted above. Further, the illustrated change does

not appear to have been properly presented if intended to show “homogeneous”. In particular, note that there is still a boundary line seen to be present (see where the arrowhead for “18” points).

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, **“the spool carried by and formed integrally, and homogeneously with the spool”** of claim 4, lines 1-2, must be shown or the feature(s) canceled from the claim(s) (Applicant must cross-hatch the skirt 18 from its base 28 to line of curved portion and the line between curved portion and straight line should be deleted). **No new matter should be entered.**

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Response to Arguments

Applicant's arguments with respect to claims 1, 5-10, and 13 have been considered but are moot in view of the new ground(s) under *35 USC § 112*.

However, Applicant should note that the absence of an art rejection should not be taken that the claimed subject matter would be allowable upon deletion of the “new matter”. Rather,

the mere deletion of such would necessitate the reinstatement of the previous ground of rejection. Accordingly, applicant will have to show the the newly added limitation was properly disclosed and present in the original disclosure.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
